IT599: Communication Plans

This part of project documentation is to ensure that all stakeholders know who, what, when, where, why, and how meetings are to take place.

Consider the headings in the examples below and create your own table with suitable content per the instructions. There is also a link in the Reading section of the unit to provide additional information.

Example 1.

| Purpose | Participants | Location | Frequency | Records/Followup |
|----------------------|-----------------------|----------------------|--------------|-------------------|
| Regular updates | PM, tech team, CEO | WebX | Every Monday | PM, post same day |
| Escalation of issues | PM, programmers | Conference Room A | As needed | Programming lead |
| | | | | |
| | | | | |

Example 2.

| Stakeholders | Purpose/Deliverable | Priority | Location or Method | Frequency |
|------------------|---------------------------------|----------|--------------------|---------------------------------|
| Network team | Physical layout discussion | High | Build site | 8 am daily Mon through Thurs |
| All stakeholders | Regular updates | High | Email | EOB Mon, Wed, Fri |
| PM, Accounting | Budget updates, vendor payments | Medium | Room 42 | As needed |
| | | | | |

Example 3.

| Need/Purpose | Leader | Required | Optional | Location | Frequency | | |
|--------------------|--------|---------------------|------------|----------|--------------|--|--|
| Status meetings | PM | Everyone | | Room 320 | Fridays 1 pm | | |
| Purchasing updates | PM | PM, team leaders | Accounting | Room 320 | As needed | | |
| | | | | | | | |
| | | | | | | | |
