

## **What is an Expository Essay?**

An expository essay = Investigating the topic, analyzing what you find, and supplying a solution, suggestion, or information to address the problem or task and supporting your position.

### **Three Parts of an Essay:**

- 1) Introduction (overview of what you hope to accomplish in the essay;
- 2) Main body of your paper (this part addresses the questions in the Assignment Checklist and in this case, should provide persuasive reasoning)
- 3) Conclusion (this summarizes your response to the assignment).
