Customer Response #258

How might we improve your stay?

Response: Could you please keep the noise down in those hallways? I came here to relax! Also, there are screens everywhere we go. We are trying to get away from work and our normal lives.

I went to the tennis shop and the Pro was trying to push me into a tournament which I did not want to play in. I really just like to play with my husband when I am here and don't want tournaments or round robins! We just want to relax.
