

MM150 – Unit 1 Discussion

Initial Reply:

Your friend Amanda's home flooded recently, and all her furniture was ruined. You and several of her closest friends have joined together to raise money to buy her a new set of living room furniture. You have been tasked with estimating how much money should be raised.

Explore living room furniture purchase options online. Choose at least six pieces of furniture. In your post, you will list each item, include the item URL, and include the approximate cost of the item rounded to the nearest \$100. Calculate the estimated total of your purchase. Do you feel this is a reasonable estimate for what must be purchased? Explain.

Recliner <URL here> \$484.99, Rounded: \$500

Coffee table <URL here> \$139.99, Rounded: \$100

Lamp <URL here> \$45.95, Rounded: \$0

Area rug <URL here> \$318.90, Rounded: \$300

Total purchases: $800+300+500+100+0+300 = \2000

I feel this is a reasonable estimate because...
