

Unit 2 Discussion Guidance – Peer Reply #2

Peer Reply #2: Create a Box & Whisker Plot

Review another classmate's thread and their 5-number summary.

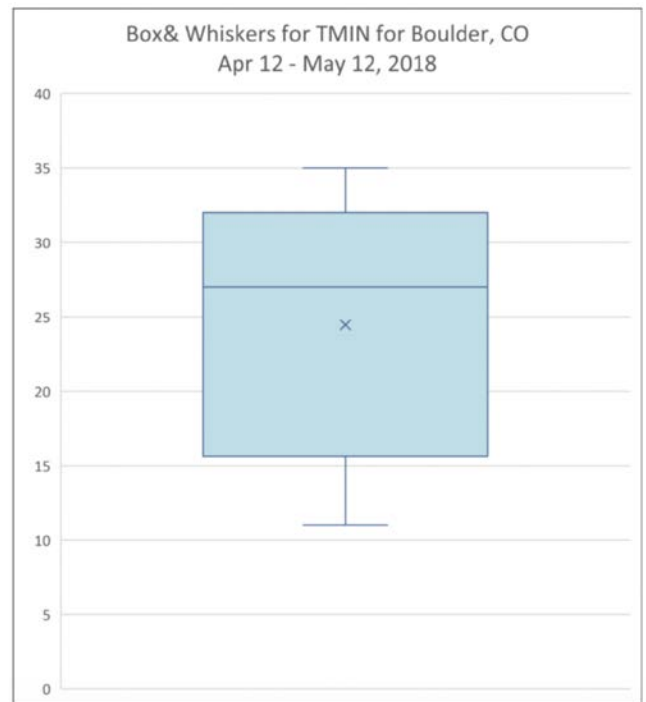

- Create a Box & Whisker plot of their data.
- Copy and paste the box plot directly in the reply or include it as an attachment.
- Describe how the size of the quartiles compare to each other.

.....

These responses are meant to be a guide on how to address the peer reply #2 post and do not include all possible responses.

I created the Box & Whiskers plot for my classmate's TMIN variable using their 5-Number Summary:

5-Number Summary TMIN	
Minimum	11
Q1	15.5
Median	27
Q3	29
Maximum	35

The 2nd quartile appears to be larger than the other three. The 1st and 3rd quartile appear to be about the same size. The 4th quartile is the smallest.
