

Requirements for the Clinical Externship | Summary

1. Which of the following organizations provide approved CPR training course(s) required during MA250?
 - a. American Heart Association
 - b. American Red Cross
 - c. American Health Care Academy
 - d. American AED CPR Association
 - e. ProCPR

Feedback: Prior to beginning your clinical experience, you must provide documentation of an approved health care provider CPR training course from the American Heart Association, American Red Cross, or ProCPR.

2. Purdue Global provides you with the opportunity to complete a CPR program free of charge through:
 - a. American Heart Association
 - b. American Red Cross
 - c. American Health Care Academy
 - d. American AED CPR Association
 - e. ProCPR

Feedback: You may sign up for ProCPR during MA250. The clinical student manager will give you a short window to sign up, but it is your responsibility to complete the CPR training.

3. Which of the following immunizations are required in order to complete the clinical experience?
 - a. 2 MMR vaccines or a positive blood titer
 - b. Tetanus vaccination within the last 10 years
 - c. Varicella vaccination, a positive titer, or documentation of the disease
 - d. 3 Hepatitis B vaccines, a positive titer, or written waiver opting out of vaccination
 - e. COVID vaccine or written waiver opting out of vaccination

Feedback: All of the vaccinations mentioned in this question are required to begin the clinical experience.

4. Which of the following is required to begin the clinical experience?
 - a. A health clearance form signed by a MD, DO, NP or PA
 - b. Negative tuberculin test
 - c. Background check that is valid through the end of the clinical experience
 - d. Completion of the national certification examination

- e. Documentation of valid state driver's license

Feedback: In order to begin the clinical experience, you must have a signed health clearance form, a negative tuberculin test, and a background check that will be valid through the end of the experience. The national certification examination and a valid driver's license are not required to begin the clinical experience.

- 5. Are you required to have a flu vaccination for the clinical experience?

- a. It is recommended.
- b. It is required by some clinical experience sites but not all.
- c. It is required by all clinical experience sites.
- d. It is recommended if you have had the flu in the past.
- e. It is only recommended if you are over the age of 50.

Feedback: Purdue Global **recommends** that all students receive the flu vaccination, but each clinical site has its own policy regarding this vaccination. Some sites require a flu vaccination and some sites do not.
